Summary

Motivated Software Engineering student with a strong foundation in Python,java and SQL. Demonstrated Cyber security project experience by developing a high-accuracy ML model for malicious URL detection. Quick learner, strong problem-solver, and team player seeking a full-time role to apply technical skills and creativity to real- world challenges.

Skills

Programming: Python
Database: SQL
Web Technologies: Html, CSS
Problem-Solving, Communication, Adaptability, Team Collaboration

Education

Geethanjali Institute of Science and Technology, Nellore Dec 2021 - April 2025

Bachelors of Technology in CSE (AI&ML), with **80%**

Narayana Junior College, Nellore June 2019 - March 2021

Board of Higher Secondary Education, with **87%**

LUMBINI VIDYALAYAM SCHOOL, chajerla March 2018-March 2019

Board of Secondary Education, with **85%**

Internship

Python Development Intern
TechnoHacks Solutions

- Gained hands-on experience in Python programming fundamentals through projects.
- Developed a project applying Python scripting, file handling, and logic building to solve tasks.
- Practiced code debugging, testing, and optimization to ensure accuracy and efficiency.
- Improved understanding of structured programming and application development using Python.
- Tools & Technologies: Python, VS Code.

Certifications

- SQL and Relational Databases — IBM
- Python Programming — Ricon Technology.

Languages

- English
- Telugu

PROJECT

Detecting and Classifying Malicious URLs Using Machine Leaning

- Developed an intelligent cybersecurity system to detect and classify malicious URLs using machine learning algorithms.
- Analyzed URL features such as length, domain age, redirection, and entropy to distinguish legitimate from malicious links.
- Implemented ensemble models (Random Forest, Gradient Boosting, XGBoost), achieving **~96% detection accuracy** with minimal false positives.
- Demonstrated strong analytical, problem-solving, and model evaluation skills using Accuracy, Precision, Recall, F1-Score.

HOBBIES AND INTEREST

- Cooking and gardening as creative outlets that enhance focus and patience.
- Participating in discussions to build communication skills, confidence, and curiosity for learning.
- Planning and managing time effectively for projects and tasks to improve productivity.
- Exploring Emerging Technologies.
